

# THE CHANGE IN PSYCHOANALYSIS – A CRITICAL AND FERTILE REALITY CHANGE, HEALING AND TRANSFORMATION IN PSYCHOANALYTIC TREATMENT

**Rezumat:** *The papers draws a few guidelines and pinpoints a few reference points that enable a certain perspective on change in psychoanalytic theory and technique, on extending the therapeutic area and the development of the theory of psychic apparatus functionality. Among these factors are the avatars of filiation, the avatars of transmission in psychoanalysis, the predominant focus on certain singular therapeutic factors, the change of pathology, the extension of the psychopathologic area in which the psychoanalytic theory is applied and the social and cultural pressure.*
