

# FROM HATE IN COUNTER- TRANSFERENCE TO BEYOND HATE

**Rezumat:** *After a short review of the notion of hate in the history of psychoanalysis, the researcher will place this notion within his clinical work and, starting from a real situation, he will attempt to demonstrate how hate can appear in counter-transference during therapy and then transform itself into saving aggressiveness, removing, on one hand, the possible enfolding of the sexual death drive and, on the other, the anger felt towards the other self.*

**Cuvinte cheie:** counter-transference, hate, aggressiveness, death drive
